☐ Location of production moved
☐ Other:

Description of change:	Gemalto M2M GmbH is going to introduce a new FW to improve the overall system performance of the product. Following modifications have been implemented: - change one configuration parameter of the Power Management Unit to avoid component damage caused by unintended current in rare stress test case. SW revision remains the same, 02.002. The application revision (ARN) is changed to 01.000.04 This change is not approval relavant. In case of questions about support of previous versions please contact local sales organization.
Scheduled date of introduction (cw/year):	CW9 2019
Timing note:	If Gemalto M2M GmbH does not receive a notification to the contrary within a period of 6 weeks, Gemalto M2M GmbH assumes that the customer agrees to the change.

Quality assurance measurements:	The new version fulfils all internal test requirements according to our Quality Management process and philosophy.
